Dear Recruiting Manager,

Below are the **3 reasons** why I believe I am an ideal candidate:

1. **Proven Track Record of Success:** With over than 2 years of experience as a Power Platform developer, I have consistently delivered high-quality solutions to multi-million-dollar international clients. My track record includes a 15% increase in operational efficiency and a 20% boost in customer satisfaction ratings, showcasing my ability to exceed performance expectations.
2. **End-to-End Deployment Management Expertise:** As a Deployment Manager at Tata Consultancy Services (TCS), I autonomously oversaw end-to-end Production deployments, achieving a commendable track record with zero escalations. This experience includes successfully migrating 15 applications, resulting in a 30% reduction in post-migration issues, and efficiently adding 200+ users to the production environment, contributing to a 25% improvement in user on boarding time.
3. **Data-Driven Decision Making:** I possess a keen ability to leverage data for strategic decision-making. In my previous roles, I generated actionable insights from data, such as creating a dashboard that influenced a \$1.7M peak profit and a 5.1M trough. Furthermore, my feasibility analysis accurately predicted a 45% ROI and 15.8% net profit over the next 20 years, showcasing my capacity to use data analysis to drive successful project outcomes and long-term organizational growth.

Sincerely,
Maanush
